# NEUROPHYSIOLOGY

## Volume 2, Numbers 1-6, 1970

(A translation of Neirofiziologiya)

## Volume 2, Number 1 January-February, 1970

| | Engl. | Russ. |
|---|---|---|
| Mechanism of Inhibition Following Reflex Discharge in Spinal Cord Interneurons – V. I. Saf'yants, S. A. Evdokimov, and Yu. N. Zubilov | 1 | 3 |
| Investigation of the Stability of the Potentials of the Dorsal Surface Evoked by Single and Paired Stimulations of the Afferent Nerve – O. A. Shugurov | 7 | 10 |
| Pyramidal Influences on Interneurons of Spinal Segmentary Reflector Arcs in Cat – A. G. Zadorozhnyi, D. A. Vasilenko, and P. G. Kostyuk | 12 | 17 |
| Background Activity of Neurons of the Dorsal Spinocerebellar Tract – B. Ya. Pyatigorskii | 19 | 26 |
| The Effect of Electrical Stimulation of Vestibular-Complex Formations on Systemic Arterial Pressure and Regional Blood Flow – A. I. Vyshatina | 26 | 35 |
| Role of the Reticular Formation of the Midbrain in the Process of Formation of Background Activity of Cortex Neurons – R. R. Velikaya and T. M. Sycheva | 33 | 43 |
| Regional Features of Background Electrical Activity and of Direct Cortical Response by the Intact or Neuronally Isolated Cortex – M. M. Khananashvili, M. M. Bogoslovskii, and E. G. Zarkeshev | 40 | 52 |
| Electrical Activity of Neurons in the Cat Cortex during Cooling – V. A. Sosenkov and V. D. Chirkov | 46 | 59 |
| Mechanism of the "Enhancing" Response in the Rabbit Visual Cortex – A. Ya. Supin | 50 | 64 |
| Electrophysiological Study of Connections between the Entorhinal Cortex and the Neocortex – M. Ya. Voloshin | 57 | 73 |
| Peculiarities of Synaptic Transmission between Photoreceptors and Horizontal Cells – Yu. A. Trifonov and M. A. Ostrovskii | 62 | 79 |
| Measurement of the Latent Period of the Response of the Turtle Horizontal Retinal Cell to Electrical Stimulation – Yu. A. Trifonov | 69 | 87 |
| Effect of Conditioning Polarization of Soma of Giant Neurons of Mollusks on the Mechanism of Action-Potential Generation – I. S. Magura and O. A. Kryshtal | 72 | 91 |
| Characteristics of Apple Snail Giant Neurons Capable of Generating Action Potentials in Sodium-Free Solutions – N. T. Parkhomenko | 79 | 100 |

## Volume 2, Number 2 March-April, 1970

| | | |
|---|---|---|
| Characteristics and Peculiarities of Cortical Evoked Potentials Following Stimulation of Visceral Afferent Systems – V. N. Chernigovskii and S. S. Musyashvhikova | 85 | 113 |
| Response Activity of Different Areas of the Associative Region of the Cerebral Cortex in the Cat – S. P. Narikashvili, A. S. Timchenko, and D. V. Kadshaya | 94 | 126 |
| Electric Responses of the Cerebral Cortex to Central Excitation and Inhibition – A. B. Kogan | 104 | 140 |
| Spatial Principle of Organization of Specific Afferent Projections and Generation of Evoked Potentials in the Somatosensory Cortex – R. A. Durinyan | 115 | 155 |
| The Functional Significance of Synchronization of Cortical Potentials in Humans – M. N. Livanov, N. A. Gavrilova, and V. N. Chemodanov | 123 | 166 |

| | Engl./Russ. | |
|---|---|---|
| Functional Characteristics of Visual Cortical Neurons of the Cat – L. M. Mkrtycheva and V. G. Samsonova | 128 | 173 |
| Functional and Ultrastructural Changes in the Midbrain Tectum of the Frog after Enucleation – Yu. B. Manteifel' and L. N. D'yachkova | 134 | 180 |
| Investigation of Spinal Neuronal Mechanisms of Movement Control Systems – P. G. Kostyuk | 143 | 189 |
| Monosynaptic Control of Spinal Motoneurons from Different Levels of the Brain – A. I. Shapovalov | 153 | 203 |
| Conducting Pathways of the Superior Cervical Sympathetic Ganglion of the Cat – V. I. Skok and A. Ya. Ivanov | 163 | 216 |

## Volume 2, Number 3 May-June, 1970

| | | |
|---|---|---|
| Responses of Auditory Cortical Neurons to Paired Clicks – F. N. Serkov and E. Sh. Yanovskii | 171 | 227 |
| The Role of Inhibition in Shaping the Type of Single Neuron Responses in the Auditory System of the Frog – N. G. Bibikov | 177 | 236 |
| Polyfunctional Character of Responses of Single Neurons of the Visual Cortex of Wakeful Rats to Light Flashes – É. A. Kuman and L. P. Latash | 182 | 242 |
| Recovery Cycles of Mass Evoked Potentials of Different Levels of the Visual System Following Electrical Stimulation of the Optic Nerve – I. A. Shevelev and I. P. Levshina | 189 | 251 |
| Effect of the Vermian Cortex of the Anterior Lobe of the Cerebellum on the Background Electrical Activity of Fastigial Neurons – A. S. Amatuni and E. A. Oganesyan | 196 | 260 |
| Synaptic Processes in the Neurons of Clarke's Column Evoked by an Antidromic Volley from the Dorsolateral Column – P. G. Kostyuk, B. Ya. Pyatigorskii, and É. Lang | 203 | 269 |
| Synaptic Processes in Thoracic $\alpha$-Motoneurons Evoked by Segmental Afferent Stimulation – N. N. Preobrazhenskii, A. P. Gokin, and I. S. Bezhenary | 210 | 279 |
| A Comparative Study of the Activity of Motoneuron Groups of Intercostal Muscles in Cat – Yu. L. Vigorov | 218 | 289 |
| The Tecto-Thalamo-Telencephalic System of the Tortoise (Electrophysiological Investigation) – M. G. Belekhova and M. M. Akulina | 224 | 296 |
| Electrophysiological Properties of Neurons and Neuronal Organization of the Crayfish Somatogastric Ganglion – V. I. Bogomolets | 233 | 307 |
| Effect of Sodium-Free Solutions on Ionic Currents of Snail Giant Neurons – O. A. Kryshtal' and N. T. Parkhomenko | 238 | 314 |
| Conditions and Character of Synchronization of the Electrical Activity of Two Neurons by Means of the Electrical Field Produced by these Neurons – V. L. Ézrokhi | 243 | 321 |

## Volume 2, Number 4 July-August, 1970

| | | |
|---|---|---|
| Negative Components of the Direct Cortical Response – A. I. Roitbak | 251 | 339 |
| Genesis and Functional Role of Cortical Evoked Potentials – F. N. Serkov | 260 | 349 |
| Evoked Potentials and Unit Activity in the Cat Somatosensory Cortex – V. M. Storozhuk | 268 | 360 |
| Analysis of the Organization of Afferent Inputs in the Projection Cortex – A. G. Rabin | 274 | 368 |
| Associative Evoked Responses of the Frontal Areas of the Cortex – A. S. Batuev | 278 | 373 |
| Origin of Associative Evoked Potential of the Orbital Cortex – V. N. Kazakov | 287 | 384 |
| Convergence of Visual and Auditory Stimuli on the Neurons of the Visual Cortex in the Conscious Rabbit – V. B. Polyanskii, S. K. Prokof'ev, and N. V. Enukidze | 293 | 391 |
| Genesis of Different Components of Evoked Response in the Associative Parietal Cortex of the Cat's Brain – A. G. Polyakova | 300 | 399 |

| | Engl. | Russ. |
|---|---|---|
| Role of Cholinergic Mechanisms in the Genesis of Some Cortical Responses – G. V. Abuladze, M. A. Gilinskii, and R. Yu. Il'yuchenok | 306 | 406 |
| Chemical Heterogeneity of Negative Components of Some Evoked Potentials – L. M. Chuppina | 311 | 412 |
| Recurrent Excitation and Inhibition in the Optical Zone of the Cortex – A. Ya. Supin | 316 | 418 |
| Functional Significance of Cortical Evoked Potentials – Yu. G. Kratin | 320 | 423 |
| Analysis of Evoked Potentials of the Cerebellar Cortex – N. V. Bratus' | 325 | 429 |
| Laminar Analysis of Hippocampal Potentials Evoked by Peripheral Stimulation – D. P. Artemenko | 329 | 434 |
| Effect of Transection of Afferent Pathways on Evoked Potentials, Theta Rhythm, and Neuronal Activity in the Hippocampus – V. M. Shaban | 333 | 439 |

**Volume 2, Number 5 September-October, 1970**

| | | |
|---|---|---|
| Analysis of Evoked Potentials from the Limbic Cortex – O. G. Baklavadzhyan and Z. A. Vagramyan | 339 | 451 |
| Effect of Local Polarization of After-Discharges of Cortical Neurones – L. L. Voronin | 346 | 460 |
| Elicited Activity of the Sensorimotor Cortex after Chronic Unilateral Exclusion of the Spinocervical Tract – N. I. Nezlina and A. D. Vorob'eva | 353 | 469 |
| Regional Variations in Spontaneous Unit Activity in the Neuronally Isolated Cortex – M. M. Khananashvili and É. G. Zarkeshev | 357 | 475 |
| Cortical Distribution of Photic Evoked Potentials – N. Yu. Belenkov and Zh. A. Belousova | 363 | 482 |
| A Primary Response with an Initial Negative Wave – V. A. Gmyrya and T. V. Vasechko | 367 | 488 |
| Hypothalamo–Hippocampal Interrelationships – T. N. Oniani, A. A. Ungiadze, and E. V. Abzianidze | 374 | 497 |
| Visceral Afferent Pathways Relaying Synaptically in the Caudal Mesenteric Sympathetic Ganglion – I. A. Bulygin and V. N. Kalyunov | 382 | 507 |
| Evoked Potentials of the Visual Center in Lower Vertebrates: Genesis and Relation to Unit Activity – Yu. B. Manteifel' | 388 | 515 |
| Participation of Nonsegmentary Neurons of the Spinal Cord in Execution of Presynaptic Control – P. E. Motsnyi and G. M. Shevchenko | 392 | 520 |
| Focal Potentials of Clarke's Column Neurons – V. P. Lebedev and B. Ya. Pyatigorskii | 398 | 528 |
| On the Transmission of Signals in Vertebrate Retina in the Presence and Absence of Impulses – A. L. Byzov, N. A. Polishchuk, and G. M. Zenkin | 404 | 536 |
| Inhibitory Synaptic Potentials of the Smooth Muscle Cells of Guinea Pig Taenia Coli – I. A. Vladimirova and M. F. Shuba | 411 | 544 |
| CHRONICLES | | |
| The IBRO UNESCO International Educational Seminar: "Physiology and Pharmacology of Synaptic Transmission" – M. Ya. Voloshin and V. B. Timchenko | 417 | 552 |
| The All-Union Symposium on "Interneuronal Transmission in the Vegetative Nervous System," Kiev, May 25-28, 1970 – V. I. Skok | 420 | 554 |

**Volume 2, Number 6 November-December, 1970**

| | | |
|---|---|---|
| Peculiarities of the Synaptic Adaptation of the Intermediate Neurons of the Thoracic Segments of the Spinal Cord by Cutaneous, Muscle, and Visceral Afferents – A. P. Gokin | 423 | 563 |
| Aftereffect Phenomena in Neurons of the Cerebellar Cortex – N. V. Bratus' | 432 | 573 |
| The Effect of the Lateral Reticular Nucleus of the Medulla Oblongata on the Cerebellar Cortex – Yu. I. Arshavskii, M. B. Berkinblit, I. M. Gel'fand, and O. I. Fukson | 439 | 581 |

Engl./Russ.

Use of the Principles of Computer Statistical Analysis for Investigating the Background Impulse Activity of Neurons – M. A. Kulikov . . . . . 444 587
Post-Tetanic Changes in Intracellular Response to Direct Cortical Stimulation – L. L. Voronin . . . . . 454 601
Relationship between Functional Characteristics of Cat Visual Cortex Neurons, Their Response to Novelty, and Short-Term Memory – V. G. Samsonova . . . . . 462 611
Temperature of the Cerebral Cortex and Its Connection with the EEG in White Rats in Free Behavior – L. P. Latash and V. M. Koval'zon . . . . . 468 618
Ultrastructure and Functional Characteristics of the Optic Nerve of Rana temporaria L. in the Norm and during Degeneration – Yu. B. Manteifel' and L. N. D'yachkova . 475 627
Influence of Lithium Ions on the Electrical Activity of Nerve Cells of the Leech – G. N. Akoev and N. A. Sizaya . . . . . 484 636
Mechanism of the Exciting Action of Noradrenalin and Adrenalin on the Smooth Muscle Cells of the Portal Vein – V. M. Taranenko and M. F. Shuba. . . . . 490 643
